

This is an important message concerning trash removal. On February 1st the Town started a new trash program. Waste Management has informed the Town of significant delays in the delivery of an informative mailer about the new program. This has unfortunately created confusion due to collection day changes and recycling week assignments. Waste Management has assured us that the mailer will arrive soon. We appreciate your patience and ask that you click the following link for detailed information. <https://www.lancasterny.gov/index.php/residents/refuse-recycling.html>
